Jibran Sarwar

Full-Stack Developer & AI Architect

Email: devjibran0@gmail.com
Phone: +92 355 5123929
GitHub: github.com/jibran-jpeg
Location: Islamabad, Pakistan

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and AI Architect with hands-on experience building autonomous AI agents, intelligent chatbots, and modern web applications. Specialized in AI Automation via n8n workflows, voice/chat AI integration, and premium UI development using React, Flutter, and cutting-edge design systems like Glassmorphism and Vibe Code. Currently co-founding an AI-driven automation Software House while pursuing BS Computer Science at SZABIST Islamabad.

EXPERIENCE

AI & Full-Stack Freelancer   2024 – Present
Fiverr · Remote / Global

- Developing and deploying AI Chatbots and AI Voice Calling systems for international clients
- Building complex n8n automation workflows connecting AI agents with CRMs, databases, and social media platforms
- Integrating Ollama-based local LLMs for privacy-focused AI solutions
- Delivering end-to-end full-stack web applications with modern UI/UX standards

Software Developer   2024
ESQUAL · Islamabad, Pakistan

- Contributed to professional software development cycles and backend logic for scalable solutions
- Collaborated on industry-level projects following agile methodologies
- Gained exposure to production-grade deployment pipelines and team workflows

PROJECTS

AI Voice & Chat Integration   AI & AUTOMATION
Built and deployed autonomous AI agents capable of handling calls and chats, fully integrated with backend systems via n8n for real-time data processing and CRM synchronization.

The Skardu Basket   FULL-STACK WEB
Developed a premium e-commerce interface focusing on modern aesthetic design patterns including Glassmorphism and Neumorphism.
jibran-jpeg.github.io/the-skardu-basket

Intelligent Chatbots via Ollama   AGENTIC AI
Developing complex n8n workflows connecting AI agents with databases, CRMs, and social media platforms. Implementing local LLM solutions for enhanced privacy and performance.

Himalayan Trails   UI/UX DESIGN
Created professional visual assets, brand identity, and interactive web experiences maintaining high-end brand consistency across digital touchpoints.

EDUCATION

BS Computer Science   2023 – Present
SZABIST (Shaheed Zulfikar Ali Bhutto Institute of Science & Technology) · Islamabad, Pakistan

Co-founding a Software House specializing in AI-driven automation, with plans to pursue a Master's in Europe to specialize in Advanced AI Systems.

Higher Secondary Education (HSSC)   Completed
Public School and College · Skardu, Gilgit-Baltistan

TECHNICAL SKILLS

AI & Automation

AI Voice Agents, Agentic AI, n8n Workflows, Ollama, LLM Integration

Backend & Database

Supabase, PostgreSQL, Firebase, Node.js, REST APIs

Frontend Development

React, Next.js, Flutter, Tailwind CSS, Framer Motion

Design & Tools

Glassmorphism, Neumorphism, Vibe Code, Figma, Git, VS Code
